COMPLAINT

NOW COMES Plaintiff Mountain Valley Pipeline, LLC (“**MVP**”), by and through the undersigned counsel, pursuant to its power of eminent domain as authorized by the Natural Gas Act, 15 U.S.C. §§ 717-717z, and Rule 71.1 of the Federal Rules of Civil Procedure, and hereby files this

Complaint to condemn property interests necessary for the construction, operation, and maintenance of an interstate natural gas pipeline and associated facilities and appurtenances (collectively, the “**Pipeline**”) across properties in Rockingham County and Alamance County, North Carolina owned or claimed by defendants (collectively, the “**Landowners**”).

1. On June 18, 2020, the Federal Energy Regulatory Commission (“**FERC**”) determined that the Pipeline is in the public interest and issued an Order granting a Certificate of Public Convenience and Necessity (the “**Certificate Order**”) for the construction, operation, and maintenance of the Pipeline, which includes approximately 75.1 miles of new 24- or 16-inch-diameter natural gas pipeline, one new compressor station, four new interconnects and associated meter stations, and ancillary facilities including pig launchers and receivers, mainline block valves, and cathodic protection beds.

2. A true and accurate copy of the Certificate Order from FERC is attached as Exhibit 1 and is incorporated by reference.

3. The Pipeline will help meet the public’s demand for natural gas by transporting natural gas from the Marcellus and Utica Shale regions and increasing access and available capacity in North Carolina and southern Virginia.

4. Completion of the Pipeline as certificated by FERC will require easements for permanent and exclusive rights-of-way, access roads, temporary construction easements, and temporary and permanent workspace easements across certain properties. Accordingly, it is necessary for MVP to acquire temporary and permanent easements across those properties. Condemnation is necessary because MVP has been unable to negotiate mutually agreeable easement agreements with the Landowners. The defendant Landowners are those owners and claimants from whom MVP has not acquired rights and easements by agreement. The owners with whom MVP has reached agreement are not being made defendants in this case.

Jurisdiction and Venue

5. This Court has subject matter jurisdiction over this action pursuant to the condemnation authority in Section 7(h) of the Natural Gas Act, 15 U.S.C. § 717f(h), and federal question jurisdiction, 28 U.S.C. § 1331.

6. The amount claimed by the Landowners for each tract exceeds \$3,000.

7. Venue is proper pursuant to 28 U.S.C. § 1391(b) because the properties to be condemned are located within the Middle District of North Carolina.

Parties and Properties

MVP

8. MVP is a Delaware limited liability company with its principal office located at 2200 Energy Drive in Canonsburg, Pennsylvania 15317. Unknown Owners

93. There may be other persons who own or claim an interest in the property rights being condemned whose names are unknown to MVP because they could not be determined by diligent inquiry. These persons have been made parties to this action as Unknown Owners as permitted by Rule 71.1 of the Federal Rules of Civil Procedure.

Authority and Uses for the Taking

94. On June 18, 2020, FERC issued the Certificate Order to MVP for the construction, operation, and maintenance of the Pipeline. See Exhibit 1. The Certificate Order finds the Pipeline to be a public convenience and necessity.

95. The Pipeline will help meet the public's demand for natural gas in North Carolina and southern Virginia by providing transportation of natural gas from the Marcellus and Utica Shale regions.

96. In issuing the Certificate Order, FERC specifically found that MVP had demonstrated a need for the project, that the project will not have adverse impacts on existing shippers or other pipelines and their customary customers, and that the project's benefits outweigh any adverse economic effects on landowners or surrounding communities. FERC further found that the environmental impacts from the project will not be significant and that the impacts are acceptable given the public benefits the project will provide.

97. To complete the Pipeline as certificated by FERC, it is necessary for MVP to acquire easements for permanent and exclusive rights-of-way, access roads, temporary construction easements, and temporary and permanent workspace easements across the properties of the Landowners.

98. As of the date of this filing, MVP has acquired—by negotiation—easements or other rights over 240 of the 332 parcels affected by its Pipeline in Rockingham and Alamance Counties, representing nearly 34 miles of the 47.73 mile long project in North Carolina.

99. For each tract, MVP made an offer of at least \$3,000 to acquire the necessary property rights for easements across the tract, but MVP has been unable to acquire those property rights by agreement from the Landowners.

100. Pursuant to Section 7(h) of the Natural Gas Act, 15 U.S.C. § 717f(h), MVP has the right to acquire the necessary property interests described herein to construct, operate, and maintain the Pipeline.

Easements to be Taken

101. In accordance with the Certificate Order, MVP condemns necessary temporary and permanent access easements, temporary and permanent workspace and additional workspace easements, temporary and permanent anode bed easements, and easements for permanent and exclusive rights-of-way on and across properties of the Landowners as described herein and shown on the maps. The easements are located over and along the route that was approved by FERC as shown on alignment sheets.

102. The easements may include, as more specifically identified on the map/plat for each property:

- a. Permanent and exclusive rights-of-way to construct, operate, protect, maintain, replace, repair, remove, or abandon the pipeline and appurtenant equipment and facilities;

- b. Ingress to and egress from the rights-of-way by means of the permanent and temporary access roads, which MVP may construct, improve, maintain, or replace as necessary or convenient;

c. The right of ingress and egress to, from, on, and across the permanent and exclusive rights-of-way to access other properties or sections of the pipeline and appurtenant equipment and facilities;

d. Temporary and permanent workspace and additional workspace;

e. Temporary and permanent anode bed easements and workspace; and

f. The right to clear trees, brush, or other vegetation as necessary or convenient for the safe and efficient construction, operation, or maintenance of the pipeline or access roads.

103. The pipeline, except for risers, valves, drips, hydrate removal systems, line markers, cathodic protection, and test stands, and other appurtenant equipment and facilities reasonably required, shall be buried so as not to interfere with the cultivation of the land. The Landowners may fully use and enjoy the premises to the extent that such use and enjoyment does not interfere with or obstruct MVP's rights described herein. The Landowners shall not, without the prior written consent of MVP: (a) change the depth of cover over the permanent and exclusive rights-of-way for the installed pipeline, (b) place or permit to be placed any temporary or permanent structure or obstruction of any kind, including but not limited to

buildings, swimming pools, sheds, paved roadways, concrete pads or sidewalks, mobile homes, trees, telephone poles or wires, electric poles or wires, water or sewer lines, meters or utility boxes, or the like on or over the permanent and exclusive rights-of-way for the installed pipeline; (c) store any materials of any kind on the rights-of-way or operate or allow to be operated over the rights-of-way any heavy machinery or equipment that is in excess of 40,000 pounds or that may damage the pipeline or its appurtenant equipment or facilities; or (d) permit the rights-of-way to be covered by standing water, except in the course of normal seasonal irrigation.

WHEREFORE, based upon the foregoing, Plaintiff Mountain Valley Pipeline, LLC respectfully requests that this Honorable Court:

1. Enter an Order granting MVP the rights and easements described above;
2. Determine and award just compensation to the Landowners for the taking of the temporary and permanent easements; and
3. Grant such other and further relief as may be deemed just and appropriate.

This the 15th day of January, 2021.
